FRONTLINE COMMUNICATIONS' BECOMES CERTIFIED TO THE ISO 9001:2008 QUALITY MANAGEMENT SYSTEMS STANDARD AND GUIDELINES

CLEARWATER, FL, (June 24, 2011) – Frontline Communications, an Oshkosh Corporation Company (NYSE: OSK), is proud to announce another step in its commitment to continual improvement and customer service with the certification of its Quality Management System to ISO 9001:2008 standard.

Frontline underwent a stringent evaluation process that included quality management system development, documentation review, gap analysis, internal audits, pre-assessment, and clearance of non-conformances, all of which work to identify corrective action and eliminate non-conformance to the quality management standard.

Frontline's decision to become ISO 9001:2008 certified is a proactive one that not only anticipates the demands of their customers, but also demonstrates their commitment to providing the highest quality products and services.

About Frontline Communications

Forward-Looking Statements

This press release contains statements that the Company believes to be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company’s future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this presentation, words such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe,” “should,” “project” or “plan” or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond the Company’s control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include the impact on revenues and margins of the projected decrease in M-ATV production rates; the cost of any warranty campaigns related to the Company’s products; the Company’s ability to start production under the FMTV contract at targeted margins; the cyclical nature of the Company’s access equipment, commercial and fire & emergency markets, especially during periods of global economic weakness and tight credit markets; the duration of the ongoing global economic weakness, which could lead to additional impairment charges related to many of the Company’s intangible assets and/or a slower recovery in the Company’s cyclical businesses than equity market expectations; the expected level and timing of U.S. DoD procurement of products and services and funding thereof; risks related to reductions in government expenditures in light of U.S. defense budget pressures and an uncertain DoD tactical wheeled vehicle strategy; the potential for the U.S. government to competitively bid the Company’s Army and Marine Corps contracts; the consequences of financial leverage associated with the JLG acquisition, which could limit the Company’s ability to pursue various opportunities; risks related to the collectability of receivables, particularly for those businesses with exposure to construction markets; risks related to production delays as a result of the economy’s impact on the Company’s suppliers; the potential for commodity costs to rise sharply, particularly in a future economic recovery; risks related to costs and charges as a result of facilities consolidation and alignment; risks associated with international operations and sales, including foreign currency fluctuations and compliance with the Foreign Corrupt Practices Act; risks related to disruptions in the Company’s distribution networks; and the potential for increased costs relating to compliance with changes in laws and regulations. Additional information concerning these and other factors is contained in the Company’s filings with the Securities and Exchange Commission. The Company disclaims any obligation to update such forward-looking statements.
